Layout Guidelines

- Continuous printing sachet foil
Digital Printing 4c CMYK gang run printing process
- CMYK colour space**
Do not use special colours or full tone colours
 - Attention:** RGB layout contents are converted to CMYK
Colour deviations are possible
 - Text safe area** for all essential texts, images and logos
beyond the sealing area
 - Effective image resolution** at least 300 dpi
 - Minimum line thickness** positive: 0,1 mm | negative 0,15 mm
 - Logos** ideally as vector graphics
 - Deep Black CMYK (40/20/20/100)** for rich surface printing
 - Black 100% K** for finer lettering & lines

Notes

- Continuous printing aroma packaging
Tolerances in cutting and packaging process
Print image overhang of 2 mm on all sides possible
- The gang run printing process may result in colour deviations
- We assume no liability for the readability of QR codes
