Layout Guidelines

Digital Printing 4c CMYK gang run printing process

- **CMYK colour space**
  Do not use special colours or full tone colours
- **Attention:** RGB layout contents are converted to CMYK
  Colour deviations are possible
- **Safety distance 4 mm inside to the punching contour**
  for elements that should not be cut
- **Effective image resolution** at least 300 dpi
- **Minimum line thickness** positive: 0,1 mm | negative 0,15 mm
- **Logos** ideally as vector graphics
- **Deep Black CMYK (40/20/20/100)** for rich surface printing
- **Black 100% K** for finer lettering & lines

Notes

- The gang run printing process may result in colour deviations
- We assume no liability for the readability of QR codes
